

St. George Logistics Web Availability

Public Access

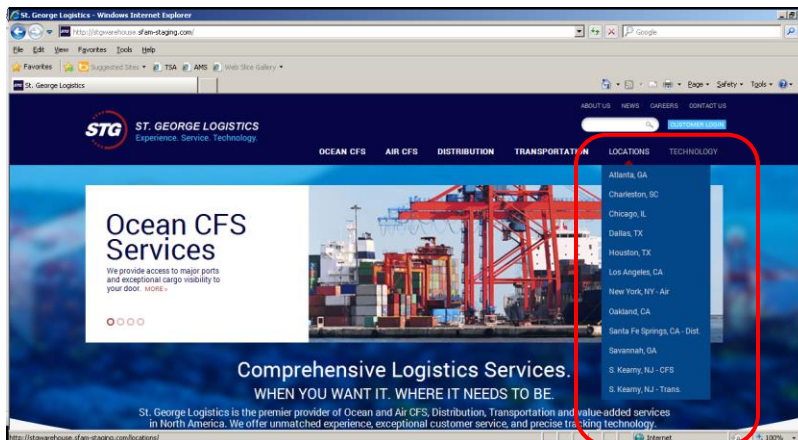

The STG availability function is a public access web site which does not require login/password to access basic availability information. The customer must know one of the search criteria's to obtain status.

Additional functionality, such as obtaining reports, is available to customers who are currently devanning at STG and have set up web accounts. This requires log in/password access.

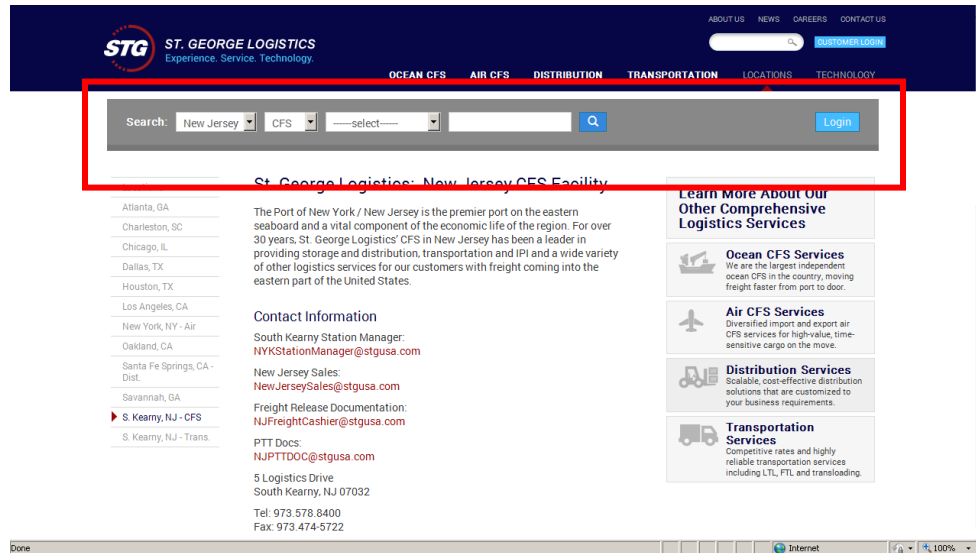

For **General Availability** information you may go to the STG facility page where your cargo is located by selecting the facility flag on the map in the lower left of the home page.

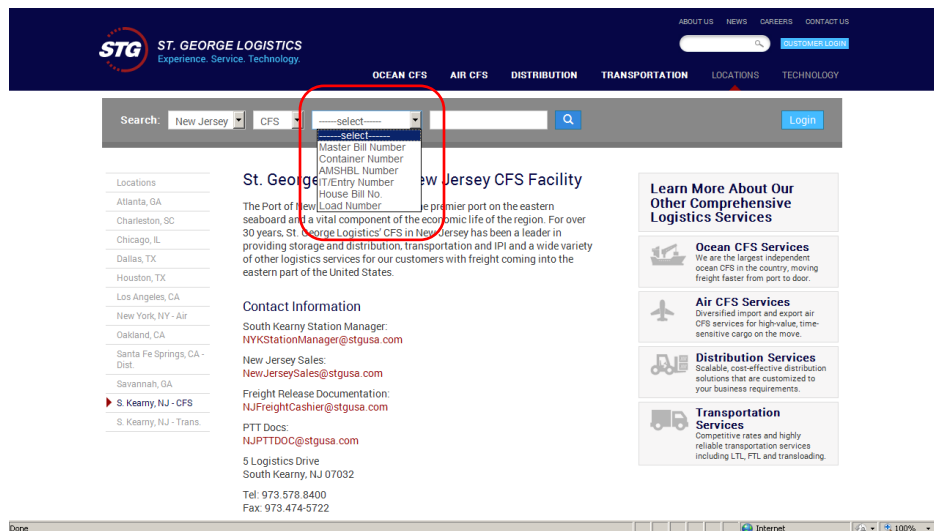

You may also select the LOCATIONS drop down from the menu bar which will allow you to link to the selected office.

Once selected, you will be forwarded to the appropriate page for the office you selected above. From here you may enter one of a variety of search criteria to access availability data

After selecting the Type of cargo you are searching (CFS, CES, GO) use the next drop down to select the method you will be searching by:

Cargo may be traced by the following:

- Master Bill Number
- Container Number
- AMS HBL Number
- IT/Entry Number
- House Bill Number
- Load Number

Once you have selected the Search criteria – enter the information in the final box and click the hour glass to obtain your lot

Please review following pages for navigation of the availability information

When selecting availability by **Container** you will be provided with the Container Summary Tab.
